

English Transition

Goodbye, Year 3 Hello, Year 4

Name: _____

I Am an Amazing Person!

Read and complete the sentences in the stars below.

You can draw or write the answers.

SPaG Activities

Section 1

Write a sentence about this monkey that contains a conjunction and an adjective. Underline them.

Section 2

Replace the underlined word with a possessive pronoun:

Molly and Milly were having a joint birthday party. The birthday party was Molly and Milly's.

Section 3

Mr Whoops has made two clumsy spelling mistakes in his sentence. Can you underline them and correct them? Use a dictionary if you need to.

The tour gujde showed us all the main attractions on the ireland.

Section 4

Do these sentences need the determiner 'a' or 'an'?

The zookeeper fed _____ elephant.

The children chose _____ pizza for lunch from the menu.

Section 5

Put an apostrophe in the correct place in this sentence:

T h e t r e e s b r a n c h e s
w e r e f i l l e d w i t h s n o w .

Section 6

Put the two homophones in the correct place in the sentence:

(main/mane)

The _____ purpose of a lion's _____ is to protect its neck when fighting.

An Incredible Mistake

There has been a huge mix-up at the airport and all of these belongings have fallen out of their suitcases. Can you help by drawing lines to match the root words to the correct prefix?

Write three sentences below which each contain two words beginning with the prefixes dis-, mis- or un-.

Monarch Butterfly

The monarch is an incredible butterfly. Each year, this brightly-coloured insect spends the spring and summer months munching on milkweed leaves and drinking nectar from flowers in North America. When autumn comes and the weather turns cold, it travels thousands of miles south to Mexico. It then spends the entire winter hibernating; only to wake up in the spring to travel all the way back again!

Migration

The monarch migrates further than any other butterfly. What's even more amazing is that it takes four generations of monarchs for this to happen – the creatures only live for a few months. That means it will take a monarch butterfly's great grandchild to complete the entire journey over the year! How they know how to do this has baffled scientists for years!

Milkweed

Milkweed is the only plant monarchs eat when they are caterpillars and they don't grow in the forests of Mexico. That's why it's important for the butterfly to fly back north to USA and Canada where there's lots of it. The monarch will then lay its eggs on the underside of milkweed leaves. Once the caterpillar hatches, it gorges on the tasty green leaves for about two weeks. It then connects itself to a twig or a leaf and forms a chrysalis. That's when its amazing transformation into a butterfly begins.

Monarch Butterfly

1. Where do monarch butterflies spend the winter?

2. Why is it important for the monarch butterfly to fly back north to USA and Canada when it's spring?

3. 'Once the caterpillar hatches, it gorges on the tasty green leaves...'

What does it mean by 'gorges'?

4. What makes the monarch butterfly so 'incredible' and 'amazing'?

Think of at least three reasons.

Spot Mr Whoops' Mistakes

Mr Whoops is very clumsy. Even though he's really trying hard with his writing, he's still accidentally misspelt 12 of his Y3/Y4 common exception words. Can you spot his mistakes?

Highlight them in the passage of text.

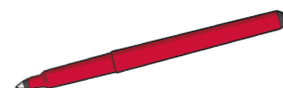

Could you then correct the words at the bottom of the sheet and create a list for Mr. Whoops to practise?

Ocasionaly, I like to go for a walk in the countryside and look at the naturel beauty around me. I have a great intrest in wildlife. Theirfore, I often take my binoculars with me in case I nowtise any woodland birds or mammals. On a reacent trek, I herd a familiar call and I was lucky enuff to see ate woodpeckers all perched in one tree. What a wonderful suprise to acktually see such a rare species. Planet Eurth is really a delightful place!

Mr. Whoops needs to practise these words:

Fix the Sentence

Can you help Mr Whoops to fix these sentences?

yesterday lunchtime jake eight a packed
lunch becos he does'nt like shcool dinners

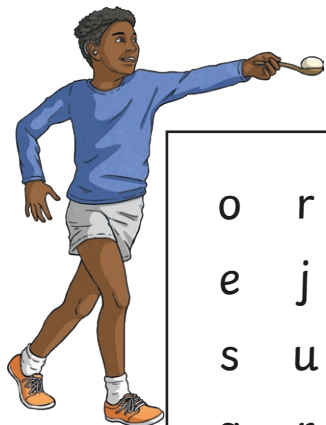

Yelow dart frogs is extremly poisonus
and dangerus creachurs!

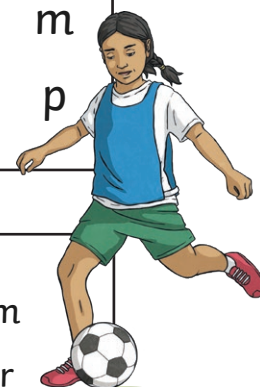

Last night Joe watch a grate football
match, on the tellyvishun?
