

Space Homework Project

Your task for the next few weeks is to **create a topic project all about Space**. To promote taking responsibility for your own learning as you get older, this homework is designed to give a greater choice and to allow you to complete work that interests you personally. You may want to choose from **one** of the suggestions below, or else think of your own project to do/make/create – the choice is yours!

e.g.

- Bake biscuits to show the relative sizes and colours of the planets, or to show the phases of the moon...
- Create a solar system model.
- Create a PowerPoint about the solar system or a specific planet, or about space exploration and astronauts...
- Use Lego to create a model rocket or satellite...
- Space themed art.

Deadline: 12th February
