

SATs Information

Year 2 SATs will take place throughout the course of May. There is no set week and they will occur throughout the month. They are completed in small groups in a low-pressured environment. The children will complete some practice questions within school so will be familiar with the format.

The tests are used to support teacher assessments and are used alongside the work the children have produced throughout the year. These will then be used to inform the teacher's final judgement.
